Human-centered Intelligent User Interfaces

MAI648

Assignment 01

Everyday Devices with an Intelligent User Interface
Individual Assignment

Description

This is an individual assignment. In this assignment you are asked to choose an everyday interaction device that is based on Artificial Intelligence and describe how its design helps or hinders the user interaction and achievement of the user's tasks with it.

Provide a report (1-2 pages, approximately 500 words) including the description of the device, typical users, goals of the users when using the device, design elements in terms of interaction (positive/negative).

Submission Guidelines

Please submit your report to the relevant submission link in the E-Class system of our course.

Assessment

This assignment has a 1.5% weight on the overall grade in this course.
